

Summary

Hii, I am a UI/UX designer with a strong vision of creating useful products, through employing technology which will help the society in many aspects of their lives. I am a fast learning person, I started learning UI/UX Design since 2015, precisely when I was in university. Being in a circumstance that involves many teamwork projects, has made me become capable for working with a team, in order to solve problems with design as one form of the solution.

Experience

<div><div>UI / UX Designer</div><div>Krealogi</div><div>Jan 2021</div></div>	Krealogi is an e-commerce platform which provides and guarantees a direct transaction between consumer and farmer. I designed the user interfaces of the application and of Krealogi. The processes included researching, creating wireframe, and designing the hi-fi prototype.
<div><div>UI / UX Designer</div><div>Natural Nusantara (NASA)</div><div>Jul 2020</div></div>	Natural Nusantara shop is one of the stores in Yogyakarta, which has many customers. Constraints and problems in this store are in the form of running out of stock of goods due to the large number of requests from consumers, as well as frequent and excessive inventory that can cause expiration of existing goods.I designed the user interfaces of the web of Daikin AC Shop Cirebon. The processes included researching, creating wireframe, and designing the hi-fi prototype.
<div><div>UI / UX Designer</div><div>Daikin AC Shop Cirebon</div><div>Apr 2018</div></div>	Daikin Ac Shop Cirebon is an platform which provides and guarantees a direct transaction between consumer and personal. I designed the user interfaces of the web of Daikin AC Shop Cirebon. The processes included researching, creating wireframe, and designing the hi-fi prototype.
